THE CENTER FOR ADOPTION SUPPORT AND EDUCATION™ (C.A.S.E.)

is a non-profit dedicated to serving adoptive, foster, kinship, and guardianship families and the professionals who support them. A national leader in mental health services for the adoption and foster care community, we improve the lives of children and their families through counseling, lifelong education, and a growing national network of trained professionals. C.A.S.E. promotes improvements in child welfare and mental health systems through education and training that dramatically increases the healing potential of families nationwide. Our work is made possible through partnerships with foundations, businesses, and corporations like yours.

UNIQUE CHALLENGES OF ADOPTION & FOSTER CARE

Due to traumatic life experiences and compromised beginnings, many children who are adopted or experienced foster care have higher risks for developmental, health, emotional, behavioral, and academic challenges. In addition, there are oftentimes complex racial, ethnic, and cultural issues inherent in families who adopt transracially/transculturally. Understanding and addressing the impact of these complex experiences is vital to positive outcomes.

A SPECIALIZED APPROACH

C.A.S.E.’s therapists have been trained under our own accredited, nationally recognized Training for Adoption Competency™ (TAC) program and have the skills, insight and experience to help families navigate the many obstacles that affect them. In fact, TAC is the only accredited, assessment-based certificate program on adoption competency in the country.

PROVEN LOCAL IMPACT

With offices in Washington, D.C., Maryland, and Virginia, C.A.S.E. has provided clinical services for more than 6,550 clients and their families since our founding in 1998.

NATIONAL REACH & REPUTATION

Through our national network of partners, C.A.S.E. has trained over 12,800 mental health and child welfare professionals in 31 states. We also work to influence legislation that impacts the adoption, foster and kinship communities. Our location in Washington, D.C. affords us the opportunity to advocate with Congress on important issues including federal funding for expansion of adoption-competent services as well as important policy issues.
